Evan Barosay

Hello, I'm an aspiring UX designer and researcher passionate about helping others through technology, design, and knowledge. Currently looking for full-time opportunities.

skills

Design

Human Centered UXUI
Heuristic Evaluation
Storyboarding
Prototyping
Wiireframing
Competitive Analysis
A/B Testing
Survey Design

Research

Ethnography
Behavioral Coding
Experimental Design
Statistical Analysis

Software & Coding

HTML
CSS
JavaScript, basic
Some Python
GitHub
Bootstrap
Sketch
Adobe Photoshop, Lightroom
Microsoft Word, XLS, PPT

education

University of California, San Diego

B.S. Cognitive Science, Design and Interaction

June 2018 | GPA 3.4

experience

Research Assistant, UCSD Design Lab

January 2017 - June 2018

Conducted research under PhD students and professors to understand scaffolding comprehension of unconventional visual systems. Independently ran experimental and observational studies and used interviews, ethnography transcription, and behavior data analysis to conclude results. Used eye-tracking and mouse-clicking software to gain a better understanding of the effectives between a user and system's design.

UX Researcher, UCSD Cognitive Science

March 2017 - November 2017

Worked to develop an interactive web-tool, CritiqueKit, for easier annotative and guided criticism between peers. Conducted observational studies, including survey research, to document user interactions. Worked with PhD team to combine evidence based research findings to improve user-interface of CritiqueKit.

&

Activities

Cognitive Science Students Association, Design at UCSD, Homeless Charter, Green Interdisciplinary Forum on Environmental Change, CHAARG, She's the First, Pi Beta Phi

Interests

Cooking, environmentalism, technology, and indoor cycling
